Life...

is all about the numbers.

Instagram followers. Goals scored. Miles hiked. Tik Tok shares .

Numbers also matter when we talk about life *within* the womb.

vision
20/20

Here are some memorable numbers in the lives of unborn children:

3.5
GPA

3 number of weeks at which an unborn baby's heart beats

6 number of weeks at which an unborn baby's skeleton is complete and brain waves develop

9 number of weeks at which an unborn baby can swallow

12 number of weeks at which an unborn baby can sense pain

14 number of weeks at which an unborn baby's hair and eyebrows appear

16 number of weeks at which an unborn baby begins kicking

18 number of weeks at which an unborn baby can hear you

20 number of weeks at which an unborn baby can smile, frown, and yawn

10K

JUST
THE
STATS

Now that you know the numbers,
it's time for you to *do something*
to put an end to abortion.

- ✓ Follow us on social media to stay informed and updated 
- ✓ Visit teenbreaks.com to learn about relationships, pregnancy, abortion, and Planned Parenthood
- ✓ Stream our podcast *Positively Pro-Life*, available on Spotify, iTunes, and other platforms
- ✓ Subscribe to our weekly e-newsletter *PA LifeLinks* on our website www.paprolife.org
- ✓ Download the app **Sprout** to see realistic images and learn about fetal development
- ✓ Join a pro-life club at school or church, or attend a meeting of your local chapter of the PA Pro-Life Federation
- ✓ Set a trend: wear a pro-life shirt, display the pro-life flag, or put a pro-life message on your car
- ✓ Post pro-life memes, videos, and articles on your social media
- ✓ Enter our pro-life essay and speech contests at www.paprolife.org
- ✓ Volunteer at a pregnancy resource center in your community

Remember—
you're never
too young ...

to be a lifesaver!
